NUCLEAR SCIENCE AND ENGINEERING is published monthly by the American Nuclear Society, Inc., with business and executive offices at 555 N. Kensington Avenue, La Grange Park, Illinois 60525; telephone 312/352-6611. The subscription rate is \$58.50 per volume or \$208 for four volumes per calendar year; overseas subscribers add \$28 per year for postage and handling. Single copy price is \$21 for current and back issues. Microfiche subscriptions are also available at the same rates. Inquiries about the distribution and delivery of NUCLEAR SCIENCE AND ENGINEERING and requests for changes of address should be directed to the American Nuclear Society. Allow 6 weeks for a change to become effective. NUCLEAR SCIENCE AND ENGINEERING is printed in Danville, Illinois 61832, by Interstate Printers and Publishers, Inc. Second-class postage is paid at La Grange Park, Illinois, and at additional mailing offices. Copyright © 1978 by the American Nuclear Society, Inc. Trademark registered in Canada.

# Get the **Concrete Evidence** on Radiation Shielding!

## **ANSI /ANS-6.4 -1977**

### **"Guidelines on the Nuclear Analysis and Design of Concrete Radiation Shielding for Nuclear Power Plants."**

#### **The American Nuclear Society's NEWEST Standard!**

This 68-page Standard is one of the most detailed standards ANS has published to date and contains methods and data needed to calculate the concrete thickness required for radiation shielding in nuclear power plants. It provides guidance to architect-engineers, utilities, and reactor vendors who are responsible for the shielding design of stationary nuclear plants. It also will be of value to the students of nuclear engineering.

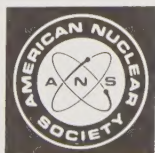

This Standard includes a discussion of the nature of concrete, emphasizing those variable aspects of the material which are important to the shield designer. It discusses methods of analysis and the shielding input data appropriate to each method. Applications of the analytical methods are given, including bulk transport, radiation heating, streaming, and reflection problems.

# WHO NEEDS IT?

*... actually, who in the nuclear industry can afford to be without it!*

## “Compilation of American Nuclear Society STANDARDS — 1977”

This 800-page hardbound edition contains the complete text of all ANS approved standards as of January 31, 1977, ANS Standards Activities, Standards Steering Committee names, a list of ANS Subcommittees, Standards Projects and a cross reference index of ANSI/ANS numbers. All for only \$98.00!

ORDER NOW AND WE WILL INCLUDE THE RECENTLY PUBLISHED KWIC "INDEX OF U.S. NUCLEAR STANDARDS" AT NO EXTRA COST!

This index contains the KWIC (key word in context) reference to the permuted titles of more than 1,200 nuclear and nuclear-related standards, specifications, test methods, codes and recommended practices published by 34 U.S. government agencies, technical societies, professional organizations and trade associations. This index was published by the U.S. Dept. of Commerce in conjunction with the National Bureau of Standards.

This handy reference is yours FREE with your order of the "Compilation of ANS STANDARDS — 1977"
